

The Willow School Barn Studio is available for rent to organizations whose mission is compatible to ours in its dedication to education, the environment, ethics and aesthetics.

The Barn Studio

The Barn Studio is a unique space comprised of reclaimed and salvaged wood from the frame of a historic barn in Hynemansville, PA. The Barn boasts platinum certification from LEED. The building has 25' ceilings, exposed pine rafters and beech ceiling boards. Daylight harvesting techniques as well as 32 oversized ceiling lamps provides ample light for the space. Architectural details such as a series of small windows, large floor to ceiling windows, floors made of unfinished maple and a stage make this space a flexible venue for meetings and / or group events. This space is designed with a rustic, open feel and an appreciation for the scenic beauty that is part of our school campus location. The Studio Barn accommodates 100-200 depending on configuration.

The Caterer

Cathy Pace is our exclusive caterer and chef here at The Willow School. Cathy comes to us with 28 years experience in all aspects of the food service industry, from chef to catering business owner and operator. Cathy and The Willow School share a deep commitment to fresh, high quality whole foods and natural and organic food preparation. As our lunch program chef, Cathy prepares delicious and nutritious meals each day for our faculty and students.
